## Front-end Developer

[dinesh.ms0003@gmail.com](mailto:dinesh.ms0003@gmail.com) | +919952829896

### OBJECTIVE

Enthusiastic and detail-oriented Frontend Developer with a solid foundation in HTML, CSS, JavaScript, and React.js. Skilled in building responsive, user-centric interfaces and eager to apply creative problem-solving to real-world projects. Seeking an entry-level opportunity to contribute to a collaborative team, enhance user experience, and grow expertise in modern frontend technologies.

### SKILLS

- Proficient in **HTML5, CSS3, JavaScript (ES6+)**
- Experience with **React.js, and Next.js**
- Knowledge of **Tailwind CSS, Bootstrap**
- Version control **with Git/GitHub**
- Basic Knowledge of **RESTful APIs and JSON**
- Familiarity with **Node.js, Express.js**
- Strong **Debugging and Troubles Shooting** skills
- Excellent problem-solving and collaboration abilities,

### PROJECTS

#### **E-commerce Product Page**

Amazon is a fully fledged ecommerce application for the product (like Home things& Outdoor). Customers can browse and purchase the things of their choice from the application and monitor application activity through the application dashboard.

- Built a responsive product page using **HTML, CSS, and JavaScript**.
- Implemented a shopping cart feature using **Local storage**

#### **Portfolio Website**

- Developed a personal portfolio website using **HTML, CSS, JS, and React.js**.
- Showcased projects, skills, and resume in an interactive and accessible format.

#### **Weather App**

- Created a weather forecasting app using **React.js** and **Open Weather API**.
- Implement dynamic background changes based on weather conditions.

## MINI PROJECTS

### **OTP Generator**

This project is a user-friendly OTP Generator built for real-world login systems. The application allows to generate random numbers, and allows easy copy-to-clipboard functionality. It includes when the OTP is expired or copied successfully. Using HTML, CSS, JavaScript, and React.js

### **Login/Sign up Form UI**

Design clean, user-friendly login and sign up forms in this project to handle basic input interactions, and implement validation logic.

User interface using HTML, CSS, and JavaScript. Responsive and clean UI, modern styling.

### **Age Calculator**

This project helps how to work with dates, user input, and DOM manipulation using JavaScript.

Using HTML5 for the structure and input elements, CSS3 for layout and styling, JavaScript for logic, validation and interaction.

### **To-Do List**

This project helps me working with DOM elements, events, and local storage using JavaScript.

Using HTML for structure and layout, CSS for styling (including hover and checked states), JavaScript for dynamic interaction, task logic, and optional local storage.

### **QR Code Generator**

This QR code generator is a clean and responsive web application that allows users to generate custom QR code instantly from URLs text, contact info, or even wi-fi credentials.

Using HTML5 for markup and structure, CSS/Flexbox/Grid for styling and layout, JavaScript (ES6) for user interactions, API integration, QR Code API .

## SOFT SKILLS

- Strong communication and teamwork
- Adaptability and eagerness to learn
- Attention to detail and problem-solving minds.
